

International transport support data documentation

Applications from 2023 and 2024 for the Danish international transport support fund owned by Statens Kunstfond and administered by the genre organisations Art Music Denmark, JazzDanmark, ROSA, and Tempi. Data is organized like a relational database with four tables (applications, activities, participants and reports - the description of which can be read below). They all share the same primary key called j_nr. The relationship between applications and the other tables is a one-to-many relationship - in practice though, the relationship to reports is a one-to-one relationship.

For any questions please contact morten@genreorganisationerne.dk.

nat_transport_applications.csv

Field	Type	Description
id	character	NA
application_date_estimated	Date	NA
application_period	character	NA
genre	character	NA
application_postcode	character	NA
shows_count	numeric	NA
act_name	character	NA
was_approved	logical	NA
granted	numeric	NA
women_count	character	NA
men_count	character	NA
nonbinaries_count	character	NA
show_date	Date	NA
show_postcode	character	NA
show_city	character	NA
show_venue	character	NA
show_audience_estimated	numeric	NA
show_members_count	character	NA
show_application_amount	numeric	NA
show_bridge_ferry	character	NA

int_transport_activities.csv

Activities related to applications. We call them activities and not concerts because they're not all concerts but can also be other kinds of international travel related to music.

Field	Type	Description
j_nr	character	Application id
activity_id	character	Activity id
activity_type	character	Activity type - i.e. concert or other
activity_country	character	Country where activity took place
activity_city	character	City where activity took place
activity_city_latitude	numeric	latitude of activity city
activity_city_longitude	numeric	longitude of activity city
activity_venue	character	Venue where activity took place
activity_venue_web	character	Website of activity venue
activity_fee	numeric	Fee received for activity

Field	Type	Description
activity_fee_currency	character	Currency of activity fee

int_transport_participants.csv

Participants related to applications - i.e. members of a the travelling party. For each application we get the number of males, females and non-binaries within each age group.

Field	Type	Description
j_nr	character	Application id
participant_group_id	character	Participant group id
participant_gender_group	character	Gender group, i.e. males, females or non-binaries
participant_age_under18	numeric	Number of people under 18 within the gender group
participant_age_18_24	numeric	Number of people in age span 18-24 within the gender group
participant_age_25_29	numeric	Number of people in age span 25-29 within the gender group
participant_age_30_39	numeric	Number of people in age span 30-39 within the gender group
participant_age_40_49	numeric	Number of people in age span 40-49 within the gender group
participant_age_50_59	numeric	Number of people in age span 50-59 within the gender group
participant_age_60_over	numeric	Number of people age 60 or more within the gender group

int_transport_reports.csv

Data from final reports, which are submitted upon completion of the tour/international travel project. Contains final accounts and evaluation of the project. Each evaluating question has the possibility to submit comments but these have been removed from the public data set as they may contain personal information.

Field	Type	Description
j_nr	character	Application id
report_id	character	Report id
accounts_expenses_fee_total	numeric	Final accounts expense item: fees paid to musicians
accounts_expenses_accommodation	numeric	Final accounts expense item: accommodation expenses
accounts_expenses_meals	numeric	Final accounts expense item: meals
accounts_expenses_pr	numeric	Final accounts expense item: PR
accounts_expenses_backline	numeric	Final accounts expense item: backline rental
accounts_expenses_local_transport	numeric	Final accounts expense item: local transport expenses
accounts_expenses_international_transport	numeric	Final accounts expense item: international transport expenses
accounts_expenses_other	numeric	Final accounts expense item: other
accounts_expenses_total	numeric	Expenses total

Field	Type	Description
accounts_income_fee_total	numeric	Final accounts income item: show fees
accounts_income_grants	numeric	Final accounts income item: grants
accounts_income_funds	numeric	Final accounts income item: other funds (not including this fund)
accounts_income_merchandise	numeric	Final accounts income item: merchandise
accounts_income_own_contribution	numeric	Final accounts income item: own contribution
accounts_income_other	numeric	Final accounts income item: other
accounts_income_estimated_total	numeric	Income total
accounts_result	numeric	result
accounts_comments	character	Comments for accounts
evaluation_further_opportunities	character	Likert scale rating of the question: I hvor høj grad oplever du, at dit/jeres projekt har skabt yderligere muligheder for internationale aktiviteter?
evaluation_artistic_development	character	Likert scale rating of the question: I hvor høj grad oplever du, at projektet har bidraget til din/jeres kunstneriske udvikling?
evaluation_satisfaction	character	Likert scale rating of the question: Hvor tilfreds er du med ansøgningsprocessen?
